

The European Journal of Applied Business and Management (EJABM) publishes its special issue, with papers presented from the Workshop on Tourism and Hospitality Management (WTHM) held at ISAG – European Business School, in the 23th of June 2017.

The members of the Organizing Committee of the WTHM are deeply thankful for all the researchers for attending the conference. We hope that the workshop contributed to the dissemination of scientific knowledge and served as a stage for the discussion of current issues relevant to the tourism and hospitality management.

All authors who presented at the workshop were invited to submit the article, being conditioned to acceptance after the double blind reviewed process. This current special issue includes seven scientific articles in which qualitative and quantitative methodologies were applied contemplating diverse themes transversal to the tourism and hospitality management. We invite all the researchers and those interested to read this edition which in total covers 121 pages.

Thank you for considering the EJABM for reading and publishing your research. The next regular issue will be coming out in March 2018.

Sincerely,

Ana Pinto Borges, PhD

Editor, European Journal of Applied Business and Management
