

## Editorial

The European Journal of Applied Business and Management (EJABM) publishes its Special Issue in November 2022, with papers selected from the International Conference of Applied Business and Management (ICABM2022) which was held at ISAG – European Business School, Porto, during the days 14 and 15 of July 2022.

The ICABM2022 was the stage for presentations of excellent works in the areas of applied business and allowed to link between the academia and practices. The members of the Organizing Committee of the ICABM2022 are deeply thankful for all the researchers for attending the conference. We had more than a hundred of oral presentations, being made by the authors in English, Portuguese and Spanish, and participants from different countries (Argentina, Colombia, India, Italy, Philippines, Portugal, Slovakia and Spain, among others).

The Special Issue of ICABM2022 includes 9 articles presented at the conference, that were evaluated by a double-blind system, covering different areas of management and tourism. The reader will have online access to the articles in the scope of accountancy, marketing, social responsibility, and tourism. We invite all the researchers and those interested to read this edition, with original empirical and theoretical research articles.

We are deeply grateful to consider the EJABM for reading and publishing your research. The next regular issue of EJABM will be coming out in December.

Sincerely,

Ana Pinto Borges, PhD.  
Editor, European Journal of Applied Business and Management
