

## **Editorial**

The European Journal of Applied Business and Management (EJABM) publishes its Special Issue in May 2023, with papers selected from the International Workshop Accounting and Taxation (IWAT2023) which was held at ISAG – European Business School, Porto, on February 17, 2023.

The IWAT2023 was the stage for presentations of excellent works in the areas of accounting and taxation sectors and allowed to link between the academia and practices. The members of the Organizing Committee of the IWAT2023 are deeply thankful for all the researchers for attending the workshop. We had more than 30 of oral presentations, being made by the authors in English, Portuguese and Spanish, and participants from different countries (Brazil, Bulgaria, Spain, Portugal and United Kingdom, among others).

The Special Issue of IWAT2023 includes 5 articles presented at the workshop, that were evaluated by a double-blind system, covering different areas of accounting and taxation. The reader will have online access to the articles. We invite all the researchers and those interested to read this edition, with original empirical and theoretical research articles.

We are deeply grateful to consider the EJABM for reading and publishing your research. The next regular issue of EJABM will be coming out in June.

Sincerely,

Ana Pinto Borges, PhD, Elvira Vieira, PhD, and Albertina Monteiro, PhD
